

INVITATION: EU BIM TASK GROUP EXPERIENCE SHARING WORKSHOP

Hosts: Czech Standardization Agency

A WORKSHOP PURPOSE:

Come and share your experience with the implementation of BIM in practice.

Together, we'll discuss current developments in legislation, education, and data management — and explore how technical standards and the data dictionary can support the digital transformation of the construction sector.

B WORKSHOP TOPIC:

OpenBIM from education through legislation to the practice and data dictionaries based on technical standards.

C ATTENDANCES:

Members of the EU BIM Task Group from public clients and policymakers from EU member states.

Workshop will be for in person participants only.

The workshop is free entrance for registered participants.

D DETAILED TOPICS OF THE WORKSHOP:

- Exploring the Legislative Framework
- Updating the BIM Concept
- Education and Training in BIM
- Content and maintainance of the national Data Dictionary
- Linked data – technical standards to national data dictionary

E WORKSHOP FORMAT:

- Moderated mix of short inputs, workshop activities and discussions.
- 20-30 participants maximum to be able to keep discussions interesting and let any participant take an active part in the debate.
- Topics and agenda of the workshop can be co-created by registered participants - for inputs, please reach out until 1th of December 2025.
- Outcome: Knowledge and suggestion document that will be published on the EUBTG website after the workshop.
